

Project Profile: Buffalo Public School #66 - North Park Academy - 2004

Project Budget: \$ 10 million

Project Summary:

North Park Academy was chosen along with 12 other buildings to be part of the first phase of the District's \$1 billion plan to renovate all its facilities.

The project was the first of all projects to be designed within the Maximum Cost Allowance for the project, submitted and approved by SED, and the first to be occupied by Students.

Our staff's ability to plan and execute multi-phased projects with Students occupying the facility was a key component to the success of this project.

Primary Project Objectives:

- ⇒ Renovate all classrooms and corridors to facilitate 21st Century program requirements.
- ⇒ Provide expanded program spaces for Science, Library, Art, and Home Careers programs
- ⇒ Make all occupied spaces in the building ADA Accessible.
- ⇒ Expand Cafeteria, and replace food service equipment,
- ⇒ Replace Heating, Electrical, and Plumbing systems
- ⇒ Reconfigure site for bus drop off.
- ⇒ Remove all asbestos and lead.
